FINANCIAL STATEMENTS & AUDITORS' REPORT FOR THE YEAR ENED JUNE 30, 2014

DIRECTORS' REPORT TO THE SHAREHOLDERS

On behalf of the Board of Directors of Yousaf Weaving Mills Limited, we are pleased to submit annual report and the audited financial statements of the Company for the year ended June 30, 2014.

Overview

Your company has achieved satisfying results for the financial year ended June 30, 2014. Total sales during the year ended June 30, 2014 amounted to Rs. 2,748.395 million as compared to Rs. 2,839.789 million during the corresponding period. Gross profit for the period amounted to Rs. 257.874 million as compared to Rs. 241.219 million depicting an increase of 6.91 % over the corresponding period. Net profit for the current year is Rs. 10.301 million as compared to profit of Rs 34.085 during the corresponding period.

Administrative expenses increased due to inflationary impact and increase in salary where as distribution expenses increased due to increase in export sale as compared to corresponding period. During the year under review, finance costs decreased to Rs. 74.186 million from Rs. 81.736 million depicting decrease of 9.24% over the previous year. This is mainly due to repayment of long term and effective working capital funds management. The company is able to discharge all its operating and financial liabilities in time through generation of stable cash flows. We are hopeful to increase profitability in the upcoming year.

Future Prospects and Outlook

High energy costs, continue load shedding of gas and electricity supply and sudden appreciation in Pakistani Rupee versus US Dollar has reduced the margin in weaving business. There is no development in existing power supply scenario prevailing in the country. The Electric and sui-gas supplies remain suspended for hours in a day badly affected the liquidity and profitability of the textile industry. Moreover, the sudden tripping and un-scheduled stoppage of electricity supply without intimation by LESCO is causing heavy damages to the quality of fabric and machines. Ever escalating power rates and imposition of variety of taxes on electricity and sui gas bills are major obstacles in long term planning. They directly effects the cost of production. Resultantly long term sale agreements do not remain viable. In presence of this undesirable situation, profitability cannot be envisaged. However, management is running the affairs with same strength and unwavering determination to show better results in the coming period.

Demand for gray fabric has declined and unit prices are falling. This trend reflects the sharp fall in international raw cotton prices. Customers are reducing stocks of textile products in order to protect themselves from stock losses. However, recent statistics has shown encouraging increase in exports of value added textiles from Pakistan. GSP related incentives from Europe for Pakistani Textiles are likely to maintain the trend of rising exports of value added textiles from Pakistan. It is hoped that as a supply chain partner of the value added textiles, our Company will benefit during the financial year. Pakistani Rupee has devalued against US\$ since the start of this financial year. It is hoped that the Company will benefit due to these developments.

In future Company's ability to produce better results are dependent on uninterrupted gas and electricity supply, continued demand for fabric from both local and International markets, stability in yarn prices, single digit inflation and controlled law and order situation in the country. The

Board of Directors is cognizant of these facts and strives to take all necessary steps to protect the interests of the Company.

REVIEW REPORT TO THE MEMBERS ON STATEMENT OF COMPLIANCE WITH BEST PRACTICES OF CODE OF CORPORATE GOVERNANCE

We have reviewed the Statement of Compliance with the best practices ("the Statement") contained in the Code of Corporate Governance prepared by the Board of Directors of Yousaf Weaving Mills Limited ("the Company") to comply with the Listing Regulations of Karachi Stock Exchange Limited and Lahore Stock Exchange Limited where the Company is listed.

The responsibility for compliance with the Code of Corporate Governance is that of the Board of Directors of the Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the company's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the company personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the company's corporate governance procedures and risks.

The Code requires the Company to place before, the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the audit Committee. We have not carried out any procedures to determine' whether the related party transactions were undertaken at arm's length price or not.

The assets related to discontinued operations were transferred to assets held for disposal directly associated with assets classified as held for sale. Based on above the dairy operations of the Company are now classified under discontinued operations.

Vote 2

Basis of Preparation

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRS) issued by International Accounting Standards Board as are notified under the Companies Ordinance, 1984, provisions of and directives issued under the Companies Ordinance, 1984. In case requirements differ, the provisions or directives of the Companies Ordinance, 1984 shall prevail.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for the Company's liability under defined benefit plan (gratuity) that is determined based on the present value of defined benefit obligation less fair value of plan assets and less unrecognised actuarial losses and biological assets that are stated at fair value less estimatd cost of sell.

2.3 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are prepared and presented in Pak Rupees which is the Company's functional and presentation currency.

2.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of policies and the reported amount of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates underlying the assumptions are reviewed on an on going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Judgments made by the management in the application of approved accounting standards, as applicable in Pakistan, that have significant effect on the financial statements and estimates with significant risk of material judgment in the next year are described in the following:

- Property, plant and equipment and Intangible assets (notes 4.6)

Note 4

Significant Accounting Policies

4.1 Staff retirement benefits

Defined benefits plan

The Company operates an unapproved unfunded gratuity scheme for all its permanent employees, whose period of service is one year or more. Under this scheme, gratuity is paid to retiring employees on the basis of their last drawn gross salary for each completed year of services, calculated from the start of service to the date of retirement. Company's obligation under the scheme is determined through actuarial valuations carried out under the "Projected Unit Credit Method". Actuarial valuations are carried out annually and the latest valuation was conducted at the balance sheet date.

Actuarial gains / (losses) arising from experience adjustments and changes in actuarial assumptions for the defined benefit plan are charged or credited to other comprehensive income in the period in which they arise. Past service costs are recognized immediately as income.

4.2 Compensated absences

The Company provides for the compensated absences of its employees on unavailed balances of leaves in the period in which the leaves are earned. Provisions are made annually to cover the obligation for compensated absences and are charged to profit and loss account. Un-encashed leaves can be carried forward upto maximum period of three years.

4.3 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

4.4 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid or given in future for goods and services received or to be delivered or for any other amount, whether or not billed to the Company.

4.5 Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax expense is recognized in the profit and loss account except to the extent that relates to items recognized directly in equity, in which case it is recognized in equity.

Current

Charge for the current taxation for the year is based on taxable income at the current rates of taxation after taking into account tax rebates and credits available, if any.

Note 4 - Significant Accounting Policies ... Contd.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits are available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Carrying amount of all deferred tax assets is reviewed at each balance sheet date and adjusted to the appropriate extent, if it is no longer probable that sufficient taxable profits would be available to allow all or part of deferred tax assets to be utilized. Tax rates enacted at the balance sheet date are used to determine deferred income tax.

4.6 Property, plant and equipment

Owned

Property, plant and equipment are stated at cost less accumulated depreciation and identified impairment losses except free hold land which is stated at Cost. Cost of property, plant and equipment consists of historical cost, borrowing cost pertaining to the construction and erection period and directly attributable cost of bringing the assets into working condition.

Depreciation is charged to income on reducing balance method at the rates specified in Note 16. Full month's depreciation is charged on additions during the month, whereas no depreciation is charged on the assets disposed off during the month. Where an impairment loss is recognized, the depreciation charge is adjusted in the future periods to allocate the asset's revised carrying amount over its estimated useful life.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and replacements are capitalized. Gains or losses on disposal of property, plant and equipment are included in the current year income.

Leased

The Company accounts for assets acquired under finance lease by recording assets and related liabilities. Principal values are determined on the basis of discounted values of total minimum lease payments to be paid by the Company. Finance costs are allocated to the accounting period in a manner so as to provide a constant periodic rate of charge on outstanding liabilities. Depreciation is charged on the same basis as owned assets at the rates specified in Note 16 to write off the cost of assets over their estimated useful life.

Capital work-in-progress is stated at cost less any identified impairment loss.

4.7 Intangible asset

An intangible asset is recognized as an asset if it is probable that future economic benefits attributable to the asset will flow to the entity and the cost of such asset can be measured reliably. Cost of intangible assets i.e. ERP and other software include purchase cost and directly attributable expenses incidental to bring the software for its intended use.

Cost that are directly associated with identifiable software and have probable economic benefits beyond one year, are recognized as an intangible assets. However, costs associated with the maintenance of software are recognized as an expense.

Intangibles are measured initially at cost and subsequently stated at cost less accumulated amortization and identified impairment losses, if any. Amortization is charged to income using reducing balance as specified in Note 17. The amortization period and the amortization method for an intangible asset are reviewed, at each financial year end, and adjusted if impact on amortization is significant.

4.8 Biological assets

Biological assets comprise of livestock. These are stated at fair value less estimated point-of-sale costs, with any resultant gain or loss recognized in the profit and loss account. The fair value of livestock is estimated on the basis of market prices of livestock of similar age, breed and genetic merit. Point-of-sale costs include all costs that are necessary to sell the assets, excluding costs necessary to get the assets to the market.

Notes to and Forming Part of the Financial Statements

Note 4 - Significant Accounting Policies ... Contd.

4.9 Stores and spares

These are valued at lower of moving average cost and net realizable value whilst items considered obsolete are carried at nil value. Cost of items in transit comprises invoice value plus incidental charges paid thereon.

4.10 Stock in trade

These have been valued at the lower of cost and net realizable value. Cost has been determined as follows:

Raw and packing materials Materials in transit Work in process Finished goods Moving average costCost and incidental charges paid thereonEstimated average manufacturing cost

- Average manufacturing cost

Manufacturing cost in relation to work in process and finished goods comprises cost of material, labour and appropriate manufacturing overheads. Net realizable value signifies the estimated selling price in the ordinary course of business less necessary cost to make the sale.

4.11 Trade debts

All outstanding debts are reviewed at the balance sheet date. The Company recognizes and carries these debts at original invoice amount less an allowance for any uncollectible amounts. Bad debts, if any, are written off as incurred and provision is made against debts considered doubtful when collection of the full amount is no longer probable.

4.12 Financial instruments

Financial instruments are recognized in the financial statements when the Company becomes a party to the contract and ceases to recognize when it loses control of contractual rights, in case of financial assets, and in case of financial liability when liability is extinguished. Any gain or loss on subsequent remeasurement / derecognizing is charged to income.

4.13 Off-setting of financial assets and financial liabilities

A financial asset and financial liability is offset and the net amount is reported in the balance sheet if the Company has a legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4.14 Cash and cash equivalents

Cash and cash equivalents are carried at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and cash at banks in current and saving accounts.

4.15 Impairment

The carrying amount of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any. The recoverable amount is the higher of fair value less costs to sell and value in use. In the absence of any information about the fair value, the recoverable amount is determined to be the value in use. Impairment losses are recognized as expense in the profit and loss account.

4.16 Borrowing cost

Borrowing cost are charged to income as and when incurred except costs that are directly attributable to acquisition, construction or production of qualifying assets that are capitalized as part of the cost of assets.

4.17 Foreign currency transactions

Transactions denominated in foreign currencies are initially recorded at Pak Rupees by applying the foreign exchange rate ruling on the date of transaction. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees at exchange rate prevailing at the balance sheet date except for balances covered under forward exchange contracts, which are converted at the contracted rates. Exchange differences are included in profit and loss account.

Notes to and Forming Part of the Financial Statements

Note 4 - Significant Accounting Policies ... Contd.

4.18 Related party transactions

Transactions in relation to sales, purchases and services with related parties are made at arm's length prices determined in accordance with the Company's policy except for the allocation of expenses such as utilities, rental and common overheads relating to the corporate office shared with related parties, which are on actual basis.

4.19 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting structure. Management monitors the operating results of its business units separately for the purpose of making decisions regarding resource allocation and performance assessment.

Segment results, assets and liabilities include items directly attributable to segment as well as those that can be allocated on a reasonable basis. Segment assets consist primarily of property, plant and equipment, intangibles, stores and spares, stock in trade and trade and other debts. Segment liabilities comprise of operating liabilities and exclude items such as taxation and corporate liabilities.

Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment and intangible assets.

4.20 Revenue recognition

- Local and export sales are recorded on dispatch of goods to customers.
- Processing income is recognised on the basis of services rendered to customers.
- Profit on bank deposits is recognized on a time proportion basis that takes into account the effective yield on the deposits.
- Rebates on exports, if any, are accounted for on accrual basis.

4.21 Dividend

Dividends are recognized as a liability in the period in which these are declared.

Note 5

Change in Accounting Policy

IAS-19 (revised) 'Employee Benefits' amends the accounting for employment benefits. The Standard has become effective for the Company from July 01, 2013. Major changes introduced by the revised Standard are as follows:

- Past service cost to be recognized immediately in the profit and loss account.
- ii) Interest cost on the defined benefit obligation and the expected return on plan assets with a net interest cost based on the net defined benefit asset or liability and the discount rate to be measured at the beginning of the year.
- iii) Remeasurement of the net defined benefit liability / asset comprising the actuarial gains / losses and the difference between the actual return on investments and return implied by the net interest cost.
- iv) Recognition of remeasurement immediately in other comprehensive income.

The management has adopted IAS-19 - Employee Benefit (revised) and changed its accounting policy retrospectively in accordance with IAS-8 'Accounting Policies, Changes in Accounting Estimates and Errors' resulting in restatement of financial statements of prior periods. Corresponding period adjustments and restatements have been incorporated in the balance sheet and statement of comprehensive income.

The effect of change in the accounting policy is demonstrated as below:

Financial Risk Management

40.1 Financial risk factors

The Company's activities expose it to a variety of following financial risks:

- (a) Market risk (including currency risk, other price risk and interest rate risk)
- (b) Credit risk
- (c) Liquidity risk

The Company's overall risk management policies focus on the unpredictability of financial markets and seek to minimize potential adverse effects on the financial performance. Risk management is carried out by the Board of Directors (the Board). The Board provides principles for overall risk management as well as policies covering specific areas such as currency risk, other price risk, interest rate risk, credit risk and liquidity risk.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign currency, interest rate, commodity price and equity price that will affect the Company's income or the value of its holdings of financial instruments.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from various currency exposures, primarily with respect to foreign receivables. Currently, the Company's foreign exchange risk exposure is restricted to the amounts receivable from / payable to foreign entities. The Company's exposure to currency risk was as follows:

	2014			
	Rs.	USD	EURO	
Trade debts	91,324,172	925,505	692,952	
Gross balance sheet exposure	91,324,172	925,505	692,952	
Outstanding letters of credit	-		-	
Net exposure	91,324,172	925,505	692,952	
		2013		
	Rs.	USD	EURO

Outstanding letters of credit	(6,126,750)	(63,523)	(49,477)	
Net exposure	21,279,747	220,629	171,847	
The following exchange rates were applied during the year:				
		2014		
	_	Rs. / \$	Rs. / Euro	
Rupees per foreign currency rate			424 70	
Average rate		98.68	131.79	
Reporting date rate	_	98.75	134.73	

Reporting date rate Sensitivity analysis

Average rate

Rupees per foreign currency rate

If the functional currency, at reporting date, had weakened / strengthened by 5% against the foreign currencies with all other variables held constant, the impact on profit before taxation for the year would have been Rs. 4.566 million (2013: Rs. 1.0639 million) respectively higher / lower, mainly as a result of exchange gains / losses on translation of foreign exchange denominated financial instruments. In management's opinion, the sensitivity analysis is unrepresentative of inherent currency risk as the year end exposure does not reflect the exposure during the year.

(ii) Other price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instrument traded in the market. The Company is not exposed to equity and commodity price risk.

(iii) Interest rate risk

This represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company has no significant long-term interest-bearing assets. The Company's interest rate risk arises from long term financing and short term borrowings. As the borrowings are obtained at variable rates, these expose the Company to cash flow interest rate risk.

Note 40 - Financial Risk Management ... Contd.

At the balance sheet date the interest rate profile of the Company's interest bearing financial instruments was as follows:

	2014	2013
	Rupees	Rupees
Floating rate instruments		
Financial liabilities		
Long term financing	41,625,000	56,725,000
Liabilities against assets subject to finance lease	15,343,856	17,947,640
Short term borrowings	425,972,338	402,425,529
Financial assets		
Bank balances - saving accounts	₽	~

Cash flow sensitivity analysis for variable rate instruments

If interest rates at the balance sheet date, fluctuate by 1% higher / lower with all other variables held constant, (loss) / profit before taxation for the year would have been Rs. 4.829 million (2013: Rs. 4.771 million) lower / higher, mainly as a result of higher / lower interest expense on floating rate borrowings. This analysis is prepared assuming the amounts of liabilities outstanding at balance sheet dates were outstanding for the whole year.

(b) Credit risk

Credit risk represents the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Carrying amounts of financial assets represent the maximum credit exposure. The maximum exposure to credit risk at the reporting date was as follows:

	2014	2013
	Rupees	Rupees
ong term loans	17,825,702	16,965,195
ong term deposits	2,738,503	2,738,503
Trade debts	112,938,420	90,999,885
oan and advances	1,820,487	805,932
rade deposits, short term prepayments and other receivables	9,795,756	10,346,732
Bank balances	645,155	30,616,402
The aging of trade debts at balance sheet date is as follows:	2014	2013
	Rupees	Rupees
Current	17,001,291	20,347,351
- 30 days	47,712,871	37,973,769
31 - 60 days	22,554,010	14,907,836
1 - 120 days	12,374,143	13,827,442
120 days and above	13,296,105	3,943,487
izo days and above	112,938,420	90,999,885

The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. The Company believes that it is not exposed to major concentration of credit risk as its exposure is spread over a large number of counter parties and trade debts are subject to specific credit ceilings.

The credit quality of bank balances that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or to historical information about counter party default rate:

The contractual cash flows relating to the above financial liabilities have been determined on the basis of interest rates / mark up rates effective as at 30 June. The rates of interest / mark up have been disclosed in Note 12 to these financial statements.

40.2 Fair values of financial assets and liabilities

The carrying values of all financial assets and liabilities reflected in financial statements approximate their fair values. Fair value is determined on the basis of objective evidence at each reporting date.

Note 41 Capital Risk Management

While managing capital, the objectives of the Company are to ensure that it continues to meet the going concern assumption, enhance shareholders' wealth and meets stakeholders' expectations. The Company ensures its sustainable growth viz. maintaining optimal capital structure, keeping its finance cost low, exercising the option of issuing right shares or repurchase shares, if possible, selling surplus property, plant and equipment without affecting the optimal operating level, and regulate its dividend payout thus maintaining smooth capital management.

In line with others in the industry, the Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including current and non current) less cash and cash equivalents. Total capital is calculated as equity as shown in the balance sheet plus net debt.
